DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education

SUMMARY: The Acting Director, Information Collection Clearance Division, Regulatory Information Management Services, Office of Management, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before [insert the 60th day after publication of this notice].

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Acting Director, Information Collection Clearance Division, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Reporting and Recordkeeping Hour Burden:

Responses: 7,059

Burden Hours: 1,113,034

Abstract: EDFacts is in the implementation phase of a multiple year effort to consolidate the collection of education information about States, Districts, and Schools in a way that improves data quality and reduces paperwork burden for all of the national education partners. To minimize the burden on the data providers, EDEN seeks the transfer of the proposed data as soon as it has been processed for State, District, and School use. These data will then be stored in EDFacts and accessed by federal education program managers and analysts as needed to make program management decisions. This process will eliminate redundant data collections while providing for the timeliness of data submission and use.

Additional Information: The Department of Education (ED) is specifically requesting the data providers in each the State Education Agency (SEA) to review Attachment D which ask specific questions about the proposed data elements. These questions will help ED to determine which of these data can be provided for the upcoming school year and which data would be available in later years and which data, if any, is never expected to be available from the SEA. If information for a data group is not available, please provide information beyond the fact that it is not available. Are there specific impediments to providing this data that you can describe? Is the definition for the data group unclear or ambiguous? Do the requested permitted values align with the way your state collects the data? This is very important information because the collection of these data is mandatory. ED also seeks to know if the SEA data definitions are consistent and compatible with the EDEN definitions and accurately reflect the way data is stored and used for education by the States, Districts, and Schools. The answers to these questions by the data providers will influence the timing and content of the final EDEN proposal for the collection of this elementary and secondary data.
